

From the Desk of Senator Vin Gopal

Dear Friend,

Here's something I've learned in my time in public service: You don't need to be a politician to be a great public servant. What you do need, though, is an unmatched dedication to improving your neighbors' lives, as well as a genuine love for your community.

This year, Ocean Township has a candidate for Council that fits each one of those conditions: Dr. Margie Donlon. As a career physician, Margie has devoted years of her life to treating and caring for others. As an environmental advocate, she's fought hard to protect Monmouth County's beaches and open spaces. And as the parent of a young daughter, she has firsthand experience of what local families need to succeed, and how we can get them there.

I've known Margie for years, and in that time, I've learned that she's passionate about the issues affecting Ocean Township residents. If you're looking for a candidate who will hold the line on local property taxes and fight against overdevelopment, Margie is just what you're looking for.

Margie's no politician - but she has the potential to be an outstanding public servant. That's why I'm proud to support her candidacy for Ocean Township Council and I urge you to do the same.

This election is so important to Ocean Township's future. On May 14th, I hope you'll join me in supporting Dr. Margie Donlon for Ocean Township Council. Polls are open from 6 AM to 8 PM. If we join together, we have an opportunity to elect a fantastic candidate that will fight hard for Ocean Township's residents.

Sincerely,

Senator Vin Gopal
